

ScrubJUG HazMat

Portable water. Safe workplace.

The **Scrub 'n Go ScrubJug HazMat Kit** is your unique and affordable answer for workplace safety. This kit provides the versatility to be used at any location in most hazardous situations.

With the concern over avian flu and based on the numerous disasters the U.S. experienced in 2005 the ScrubJug Hazmat Kit, is the solution for all these concerns and more. This simple, totally self contained product provides several unique capabilities:

- It can be a source of potable water in emergencies (10 L / 3.5 US gallon capacity)
- Water for hand washing and a supply of germicidal soap – CDC indicates that 17 seconds of good hand scrubbing does an adequate job of hand decontamination and significantly limits cross-contamination
- Emergency eye washing with the unique eye lavage device available exclusively from selected medical supply distributors.
- All components stored in the convenient upper compartment above the water supply.
- Available in international rescue orange or law enforcement blue. Special orders can be stamped with your logo and made in any color specified (minimum of 500 units in a single purchase for logos and special-order color).

The Scrub 'n Go ScrubJug HazMat Kit includes:

- HAZMAT/ Biohazard decontamination kit.
- Bottle of soap and antibacterial hand sanitizer.
- Rinse hose.
- Portable gravity-fed, eyewash system.
- Bottle of anti-bactericide to keep water potable for up to six months.
- Heavy duty paper towels.
